December 2000

Tyco International Headquarters

New York, New York

Tyco International is Fortune 100 diversified corporation whose 31,500 square foot corporate headquarters at the prestigious 9 West 57th Street house a private chairman's suite, executive offices, Legal departments, Mergers & Acquisitions departments, executive dining room and gourmet kitchen.

The design is a traditional environment, with nautical overtones, suggesting the

company's roots in undersea communications.

The extensive use of French Walnut paneling and cabinetry is juxtaposed with state of the art IT infrastructure and environmental controls.

Alayo Architects PC led a design build team that included Bovis Lend Lease Interiors, Jaros Baum & Bolles, CS Technology, and McMillen, Inc.
