## The Vendome

Dallas, Texas

The Vendome is a 21-story luxury condominium located in the heart of Dallas. Laying claim to the best address on Turtle Creek, the Vendome is redefining the high mark of luxury high-rise living for Dallas. Set within a lush two-acre garden, the building carries its strong French theme throughout the public spaces, meeting rooms, lobbies, and into the décor of the units.

The larger residences boast private elevator access, expansive living rooms, bedrooms and galleries, as well as extensive balconies.

Each unit is finely appointed with architectural millwork, hardwood floors, gourmet kitchens, and high ceilings. Additionally, the building is among Dallas' most innovatively designed hi-tech buildings offering buyers in-home networks, and hi-speed telecommunications.
